# Transport system TS 1000

*The versatile one!*

5520

## Transport system TS 1000

### Sack truck function:

- Varying handle positions enable an optimal tilting and transporting
- Handles with protective hoops
- High resting surface; ideal for high objects/loading

### Wheelbarrow function:

- Easy to load due to the low loading height
- A simple exchanging of various containers makes the system better than every other wheelbarrow

**5** year  
guarantee

**1.**

Sack truck function

**2.**

Wheelbarrow function

**3.**

can be stored in a compact manner

Ideal for heavy garden furniture, firewood, etc.

With a fast-folding system

**! new**

**Technical data:**

Height: 125 cm  
Width: 63 cm  
Max. load: 150 kg (sack truck function)  
200 kg (wheelbarrow function)  
Weight: 15 kg

**Ball-bearing wheels with pneumatic tyres for an easy and comfortable transporting**

**Round transverse rods and rear panel for a secure holding of round objects**

**Tilt-resistant transporting of even heavy loads**

**Suitable for use on steps: Adapting tilting angle with the fast folding system for an optimal retention of the loaded object in all situations**

**With the folded down plate, ideal for transporting longer objects**

# Transport system TS 800

**The comfortable!**

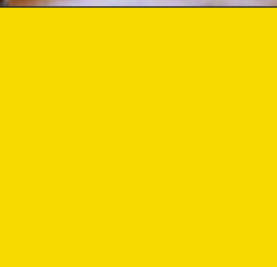

5500

## Transport system TS 800

- Max. height: 110 cm
- Bearing capacity: 90 kg
- With variable height adjustment for easier handling

Rounded transverse rods – ideal for transporting round objects

**5** year  
guarantee

Extremely diverse due to a clever fixing with numerous suspension possibilities

**comfort**

Easy tilting with the sturdy cross bar

Wheels and plate open with a single grip, thanks to the folding mechanism

**automatic**

The individual height adjustment up to 110 cm allows easy handling and transportation

Max. height  
110 cm

Bearing capacity  
90 kg

Large profile wheels  
with smooth-running  
ball bearings suitable  
for use on steps and  
outside

Extremely diverse  
due to a clever  
fixing with numerous  
suspension possibilities

# Transport system TS 600

**The mobile!**

5505

## Transport system TS 600

- Max. height: 104 cm
- Bearing capacity: 70 kg

- With variable height adjustment for easier handling
- Compact when folded

Rounded transverse rods – ideal for transporting round objects

**5** year guarantee

Extremely diverse due to a clever fixing with numerous suspension possibilities

**compact**

Very easy to handle, with a low weight of only 3.9 kg

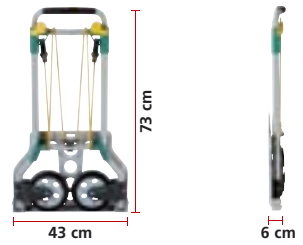

**mobil**

Can be optimally stowed away thanks to the small packing dimensions

Ergonomically formed for a comfortable hold even when transporting bulky objects

Fast-folding system thanks to the automatic folding

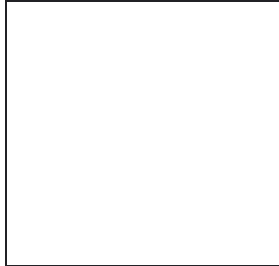

Max. height  
104 cm

Bearing capacity  
70 kg

Wheels and plate open with a single grip, thanks to the folding mechanism

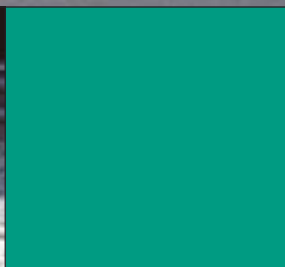

Always there when it's needed

Can be used everywhere

Indispensable every time you move house
